BOOK REVIEWS

INFORMATION FOR AUTHORS

RADIODIAGNOSIS

Techniques/Subspecialities

Forensic radiology (Review article), 129

Radiography

Electronic monitoring of clinical experience during undergraduate training in diagnostic radiography (Short communication), 76

Variation between experienced observers in the interpretation of accident and emergency radiographs, 323
Reliability of radiological measurements in the assessment of hip dysplasia in adults, 331
A radiographic method for assessing lung area in neonates, 335
Pulmonary tuberculosis: radiological features in West Africans coinfected with HIV, 339
Radiographic screening for midfacial fracture in A&E (Commentary), 523
A simple chest radiograph score to predict chronic lung disease in prematurely born infants, 530
Interpretation of selected accident and emergency radiographic examinations by radiographers: a review of 11000 cases, 546
A comparison of image reject rates when using film, hard copy computed radiography and soft copy images on picture archiving and communication systems (PACS) workstations, 653
The bead bag immobilization device (Short communication), 889

Ultrasound

Sonographic detection and characterization of musculoskeletal and subcutaneous tissue abnormalities in sickle cell disease, 9
The diagnosis of cirrhosis by high resolution ultrasound of the liver surface, 29
Waldenstrøm's macroglobulinaemia of the breast detected by colour Doppler ultrasound (Case report), 82
Vascular ultrasound: yet another casualty? (Commentary), 126
The value of serial Doppler ultrasound as a predictor of clinical outcome and the need for transplantation in fulminant and severe acute liver failure, 134
Ultrasound, CT and colonoscopy of colonic cancer, 144
A comparison of MRI and echocardiography in hypertrophic cardiomyopathy, 258
The 4 year outcome following the demonstration of bilateral renal pelvic dilatation on pre-natal renal ultrasound, 265
Volumetric assessment of carotid artery bifurcation using freehand-acquired, compound 3D ultrasound (Short communication), 289
How sensitive is ultrasound in the detection of renal scars? 345
Increased first trimester nuchal translucency: pregnancy and infant outcomes after routine screening for Down's syndrome in an unselected antenatal population, 457
Ultrasound diagnosis and guided biopsy in renal actinomycosis (Case report), 510
Cricoid cartilage masquerading as a tumour on thyroid ultrasound, 644
Ultrasonographic detection of normal lymph nodes in patients with breast cancer (Correspondence), 827
The indications for scrotal ultrasound, 833
Ultrasound evidence of gas in the fissure for ligamentum teres: a sign of perforated duodenal ulcer (Case report), 901
Ultrasound of testicular epidermoid cysts, 942
First trimester nuchal translucency: effective routine screening for Down's syndrome, 946
Abdominal ultrasound in acute schistosomiasis mansoni, 949
Ultrasound guided fine needle aspiration biopsy of splenic lesions, 953
Renal duplication artefacts in ultrasound imaging, 1040
Repeated ^{131}I treatment of a residual ovarian teratoma containing malignant thyroid tissue (Case report), 1110
Colour Doppler ultrasound for the evaluation of bowel wall thickening, 1164

MRI

Rectal adenocarcinoma: assessment of tumour involvement of the lateral resection margin by MRI of resected specimen, 18
MR imaging of synovial tumours and tumour-like lesions (Pictorial review), 212
Imaging of patients with severe emphysema considered for lung volume reduction surgery (Review article), 227
Estimation of breast volume and its variation during the menstrual cycle using MRI and stereology, 236
MRI appearances of the axilla in treated breast cancer, 250
A comparison of MRI and echocardiography in hypertrophic cardiomyopathy, 258
MR findings in ovarian granulocytic sarcoma (Case report), 301
MR features of the denervated tongue in radiation induced neuropathy, 349
MRI features of Balo's concentric sclerosis (Case report), 400
Pachymeningitis and optic neuritis in rheumatoid arthritis: MRI findings (Case report), 404
Differential diagnosis of gynaecological "stained glass" tumours on MRI (Pictorial review), 414
Dynamic contrast-enhanced MRI studies in human tumours (Commentary), 427
The cost of MRI: changes in costs 1989–1996 (Review article), 432
MRI of thoracic vascular lesions with emphasis on two-dimensional time-of-flight MR angiography (Pictorial review), 613
Pulmonary sequestration diagnosed by contrast enhanced three-dimensional MR angiography (Case report), 709

MRI of head and neck paracoccidioidomycosis (Pictorial review), 717
MRI of local disease in nasopharyngeal carcinoma: tumour extent *vs* tumour stage, 734
Quantitative analysis of MRI signal intensity in new variant Creutzfeldt–Jakob disease, 742
Magnetic resonance imaging and proton MR spectroscopy in Wilson's disease, 749
Inflammatory pseudotumour of the bladder: CT and MRI findings (Case report), 809
MRI assessment of the pre-vertebral soft tissues in acute cervical spine trauma (Pictorial review), 818
In vivo anatomical analysis of arterial contact with trigeminal nerve: detection with three-dimensional spoiled grass imaging, 838
The bead bag immobilization device (Short communication), 889
Endorectal magnetic resonance imaging of a rectal duplication cyst (Case report), 896
Female adnexal tumour of probable Wolffian origin: MR findings (Case report), 911
Echoplanar MRI in patients with an acute stroke syndrome (Pictorial review), 914
Small bowel MRI using water as a contrast medium (Short communication), 994
Magnetic resonance imaging of actinomycosis presenting as pelvic malignancy (Case report), 1006
MRI of arachnoid granulations within the dural sinuses using FLAIR pulse sequence, 1046
Imaging of recurrent esthesioneuroblastoma, 1052
Dynamic contrast enhanced magnetic resonance scanning as a predictor of response to accelerated radiotherapy for advanced head and neck cancer, 1093
Design and use of internal receiver coils for magnetic resonance imaging (Review article), 1141
Differentiation of recurrent rectal cancer and scarring with dynamic MR imaging, 1155
Contrast enhanced dynamic MRI of cervical carcinoma during radiotherapy: early prediction of tumour regression rate, 1177
MR findings in degenerated ovarian leiomyoma (Case report), 1213

CT

An anthropomorphic phantom for receiver operating characteristic studies in CT imaging of liver lesions, 35
Computed tomography in abdominal tuberculosis (Pictorial review), 92
Ultrasound, CT and colonoscopy of colonic cancer, 144
Biliary imaging by spiral CT cholangiography—a retrospective analysis, 149
CT derived Patlak images of the human kidney, 153
Persistent hypophyseal (craniopharyngeal) canal (Case report), 204
Imaging of patients with severe emphysema considered for lung volume reduction surgery (Review article), 227
CT findings in involvement of the paranasal sinuses by lepromatous leprosy, 271
Pre-surgical localization of ectopic parathyroid glands using three-dimensional CT imaging, $^{99}Tc^{m}$ sestamibi, and $^{99}Tc^{m}$ tetrofosmin imaging (Short communication), 296
CT of unusual nasal masses (Pictorial review), 313
Routine use of CT prior to lumbar puncture (Correspondence), 319
Right atrial metastatic melanoma detected by dynamic contrast enhanced spiral CT (Case report), 395
The meaning and significance of the equilibrium phase in enhanced computed tomography of the liver, 438
Pre-operative staging of ampullary tumours by endoscopic ultrasound, 443
The hypertrophied antral-pyloric fold: CT appearance (Case report), 505
Paradoxical pulmonary embolism secondary to aortocaval fistula: diagnosis by helical CT (Case report), 507
Relationships between physical dose quantities and patient dose in CT, 556
Evaluation of head examinations produced with a mobile CT unit, 631
Transient splenomegaly in acute pancreatitis, 637
Assessing chemotherapy response of squamous cell oesophageal carcinoma with spiral CT, 678
Systemic to pulmonary venous communication (right-to-left shunt) in superior vena cava obstruction demonstrated by spiral CT (Case report), 712
Quantitative CT of the orbit in Graves' disease, 757
Inflammatory pseudotumour of the bladder: CT and MRI findings (Case report), 809
Intrahepatic portosystemic venous shunt associated with a large abdominal tumour (Case report), 815
Dual phase helical CT of a primary malignant fibrous histiocytoma of the right renal vein (Case report), 899
Features of unusual metastases from prostate cancer (Review article), 933
Contrast-enhanced CT in acute pancreatitis (Correspondence), 1029
Imaging of recurrent esthesioneuroblastoma, 1052
Conversion of multiple solid testicular teratoma metastases to fatty and cystic liver masses following chemotherapy: CT evidence of "maturation" (Case report), 1114
Renal metastases from a squamous cell carcinoma of the larynx (Case report), 1117
Osteoid osteoma of a cervical vertebral body (Case report), 1120

CT evaluation of gastric wall pathology (Pictorial review), 1124
Lung metastasis invading the left atrium—CT diagnosis (Case report), 1211

Interventional radiology

Embolization of uterine fibroids, 159
The use of soft and flexible guidewires in the treatment of chronic total coronary occlusions by activated guidewire angioplasty, 162
Embolization of iatrogenic venous pseudoaneurysm (Case report), 311
Dissecting vertebral artery aneurysm: diagnosis and coil embolization (Case report), 408
Accuracy of intravascular microcatheter pressure measurements: an experimental study, 448
The repositioning of migrated Tenckhoff continuous ambulatory peritoneal dialysis catheters under fluoroscopic control, 452
Superior mesenteric artery stenting for mesenteric ischaemia in Sneddon's syndrome (Case report), 607
Fatal complication of an expandable metallic bronchial stent (Case report), 706
Stereotactic excisional breast biopsy performed by interventional radiologists using the ABBI system (Correspondence), 828
Hepatic artery aneurysm (Pictorial review), 1018
Pneumothorax post CT-guided lung biopsy: a comparison between detection on chest radiographs and CT, 1160

Angiography

Correlation of a defect of portal perfusion in the dorsal part of segment IV of the liver on CT arterial portography with inflow of the aberrant pancreaticoduodenal vein, 552
Intrahepatic portosystemic venous shunt associated with a large abdominal tumour (Case report), 815
The bead bag immobilization device (Short communication), 889
Aberrant gastric venous inflow to the left lobe of the liver parenchyma adjacent to the falciform ligament (Case report), 903
Hepatic artery aneurysm (Pictorial review), 1018
Subclavian artery aneurysm with oesophagoarterial fistula (Case report), 1208

Nuclear medicine

Acute pan-costochondritis demonstrated by gallium scintigraphy (Case report), 210
Imaging of patients with severe emphysema considered for lung volume reduction surgery (Review article), 227
Pre-surgical localization of ectopic parathyroid glands using three-dimensional CT imaging, $^{99}Tc^{m}$ sestamibi, and $^{99}Tc^{m}$ tetrofosmin imaging (Short communication), 296
Thallium-201 scintigraphy in malignant mesothelioma (Case report), 308
Multiple pyogenic granuloma demonstrated by SPECT using $^{99}Tc^{m}$-labelled red blood cells (Case report), 397
Evaluation of ^{18}F-FDG positron emission tomography in gastric and oesophageal carcinoma, 525
A transformation cross-talk technique for simultaneous dual radionuclide imaging: a myocardial perfusion $^{201}Tl/^{99}Tc^{m}$ sestamibi dog SPECT study, 872
Repeated ^{131}I treatment of a residual ovarian teratoma containing malignant thyroid tissue (Case report), 1110

Paediatric radiology

The 4 year outcome following the demonstration of bilateral renal pelvic dilatation on pre-natal renal ultrasound, 265
A radiographic method for assessing lung area in neonates, 335
How sensitive is ultrasound in the detection of renal scars? 345
The reliability of bone age determination in central European children using the Greulich and Pyle method, 461
A simple chest radiograph score to predict chronic lung disease in prematurely born infants, 530
Growing skull fracture extending posteriorly to the superior sagittal sinus with intradiploic extension (Case report), 714

Oncology

Determination of tumour regression rates during radiotherapy for cervical carcinoma by serial MRI: comparison of two measurement techniques and examination of intraobserver and interobserver variability, 62
Intramedullary spinal metastasis from carcinoma of the cervix (Case report), 89
Does resection of small liver metastases from colorectal cancer improve survival of patients? 246
MRI appearances of the axilla in treated breast cancer, 250
Spontaneous regression of pulmonary metastases demonstrated by CT (Case report), 304
Thallium-201 scintigraphy in malignant mesothelioma (Case report), 308
Polypoid endobronchial Hodgkin's disease with pneumomediastinum (Case report), 392
Dynamic contrast-enhanced MRI studies in human tumours (Commentary), 427
MRI of local disease in nasopharyngeal carcinoma: tumour extent *vs* tumour stage, 734
The cancer patient in the radiology department: do we live up to our responsibilities? (BIR Presidential Address), 929

Conversion of multiple solid testicular teratoma metastases to fatty and cystic liver masses following chemotherapy: CT evidence of "maturation" (Case report), 1114
Differentiation of recurrent rectal cancer and scarring with dynamic MR imaging, 1155
Contrast enhanced dynamic MRI of cervical carcinoma during radiotherapy: early prediction of tumour regression rate, 1177
Lung metastasis invading the left atrium—CT diagnosis (Case report), 1211
Imaging appearances of Sister Mary Joseph nodule (Pictorial review), 1230

Breast

The significance of spontaneous resolution of breast calcification, 3
Waldenstrøm's macroglobulinaemia of the breast detected by colour Doppler ultrasound (Case report), 82
Estimation of breast volume and its variation during the menstrual cycle using MRI and stereology, 236
MRI appearances of the axilla in treated breast cancer, 250
Analysis of optical density and contrast in mammograms, 670
Improving the visibility of radio-opaque markers in mammography (Short communication), 799
Ultrasonographic detection of normal lymph nodes in patients with breast cancer, (Correspondence), 827
Stereotactic excisional breast biopsy performed by interventional radiologists using the ABBI system (Correspondence), 828
A comparison of 14 and 12 gauge needles for core biopsy of suspicious mammographic calcification, 1152

Statistics

Is there an improvement in performance when radiographs are re-reported at 24 hours? 465

PET

Positron emission tomography in breast cancer: a clinicopathological correlation of results, 1064

Genitourinary tract

CT derived Patlak images of the human kidney, 153

General urinary tract

Metanephric adenoma in a solitary kidney (Case report), 80
Diffuse retroperitoneal amyloidosis due to renal cell carcinoma (Case report), 412
Ultrasound diagnosis and guided biopsy in renal actinomycosis (Case report), 510
Comparison of iodixanol and iohexol in renal impairment (Short communication), 701
Inflammatory pseudotumour of the bladder: CT and MRI findings (Case report), 809
Dual phase helical CT of a primary malignant fibrous histiocytoma of the right renal vein (Case report), 899
Renal duplication artefacts in ultrasound imaging, 1040
Renal metastases from a squamous cell carcinoma of the larynx (Case report), 1117

Paediatric urinary tract

The 4 year outcome following the demonstration of bilateral renal pelvic dilatation on pre-natal renal ultrasound, 265
How sensitive is ultrasound in the detection of renal scars? 345
High resolution imaging of transitional cell carcinoma with optical coherence tomography: feasibility for the evaluation of bladder pathology, 1170

Gynaecology

Calcification of presumed ovarian carcinoma brain metastases following radiotherapy (Case report), 85
Intramedullary spinal metastasis from carcinoma of the cervix (Case report), 89
Embolization of uterine fibroids, 159
MR findings in ovarian granulocytic sarcoma (Case report), 301
Differential diagnosis of gynaecological "stained glass" tumours on MRI (Pictorial review), 414
Female adnexal tumour of probable Wolffian origin: MR findings (Case report), 911
Magnetic resonance imaging of actinomycosis presenting as pelvic malignancy (Case report), 1006
Contrast enhanced dynamic MRI of cervical carcinoma during radiotherapy: early prediction of tumour regression rate, 1177
MR findings in degenerated ovarian leiomyoma (Case report), 1213

Obstetrics

Fetal position and size data for dose estimation, 363
Increased first trimester nuchal translucency: pregnancy and infant outcomes after routine screening for Down's syndrome in an unselected antenatal population, 457
First trimester nuchal translucency: effective routine screening for Down's syndrome, 946
MR findings in degenerated ovarian leiomyoma (Case report), 1213

Male genital system

The indications for scrotal ultrasound, 833
Features of unusual metastases from prostate cancer (Review article), 933
Ultrasound of testicular epidermoid cysts, 942

A case of rectoprostatic fistula due to prostatic abscess visualized by barium enema (Case report), 1016
Conversion of multiple solid testicular teratoma metastases to fatty and cystic liver masses following chemotherapy: CT evidence of "maturation" (Case report), 1114

Interventional procedures
Embolization of uterine fibroids, 159
The repositioning of migrated Tenckhoff continuous ambulatory peritoneal dialysis catheters under fluoroscopic control, 452
Ultrasound diagnosis and guided biopsy in renal actinomycosis (Case report), 510

Central nervous system
Calcification of presumed ovarian carcinoma brain metastases following radiotherapy (Case report), 85
MRI features of Balo's concentric sclerosis (Case report), 400
Pachymeningitis and optic neuritis in rheumatoid arthritis: MRI findings (Case report), 404
Dissecting vertebral artery aneurysm: diagnosis and coil embolization (Case report), 408
Extracranial metastatic meningioma (Case report), 513
Evaluation of head examinations produced with a mobile CT unit, 631
Pneumocephalus secondary to colonic perforation by ventriculoperitoneal shunt catheter (Case report), 704
Growing skull fracture extending posteriorly to the superior sagittal sinus with intradiploic extension (Case report), 714
Quantitative analysis of MRI signal intensity in new variant Creutzfeldt–Jakob disease, 742
Magnetic resonance imaging and proton MR spectroscopy in Wilson's disease, 749
In vivo anatomical analysis of arterial contact with trigeminal nerve: detection with three-dimensional spoiled grass imaging, 838
Echoplanar MRI in patients with an acute stroke syndrome (Pictorial review), 914
MRI of arachnoid granulations within the dural sinuses using FLAIR pulse sequence, 1046

Head and neck
Superior mesenteric artery stenting for mesenteric ischaemia in Sneddon's syndrome (Case report), 607

Orbits
Quantitative CT of the orbit in Graves' disease, 757

Pituitary
Persistent hypophyseal (craniopharyngeal) canal (Case report), 204

Sinuses
CT findings in involvement of the paranasal sinuses by lepromatous leprosy, 271

Ear, nose and throat
CT of unusual nasal masses (Pictorial review), 313
MR features of the denervated tongue in radiation induced neuropathy, 349
MRI of head and neck paracoccidioidomycosis (Pictorial review), 717
MRI of local disease in nasopharyngeal carcinoma: tumour extent *vs* tumour stage, 734
Imaging of recurrent esthesioneuroblastoma, 1052
Renal metastases from a squamous cell carcinoma of the larynx (Case report), 1117

Respiratory tract
Imaging of patients with severe emphysema considered for lung volume reduction surgery (Review article), 227
Spontaneous regression of pulmonary metastases demonstrated by CT (Case report), 304
Thallium-201 scintigraphy in malignant mesothelioma (Case report), 308
A radiographic method for assessing lung area in neonates, 335
Pulmonary tuberculosis: radiological features in West Africans coinfected with HIV, 339
Polypoid endobronchial Hodgkin's disease with pneumomediastinum (Case report), 392
Extracranial metastatic meningioma (Case report), 513
A simple chest radiograph score to predict chronic lung disease in prematurely born infants, 530
Fatal complication of an expandable metallic bronchial stent (Case report), 706
Pulmonary sequestration diagnosed by contrast enhanced three-dimensional MR angiography (Case report), 709
Pneumothorax post CT-guided lung biopsy: a comparison between detection on chest radiographs and CT, 1160

Cardiovascular system
Acquired heart disease
Dynamic intravenous coronary angiography using 2D monochromatic synchrotron radiation, 24
The use of soft and flexible guidewires in the treatment of chronic total coronary occlusions by activated guidewire angioplasty, 162
A comparison of MRI and echocardiography in hypertrophic cardiomyopathy, 258
Lung metastasis invading the left atrium—CT diagnosis (Case report), 1211

Great vessels
Dissecting vertebral artery aneurysm: diagnosis and coil embolization (Case report), 408

Paradoxical pulmonary embolism secondary to aortocaval fistula: diagnosis by helical CT (Case report), 507
MRI of thoracic vascular lesions with emphasis on two-dimensional time-of-flight MR angiography (Pictorial review), 613
Systemic to pulmonary venous communication (right-to-left shunt) in superior vena cava obstruction demonstrated by spiral CT (Case report), 712
Subclavian artery aneurysm with oesophagoarterial fistula (Case report), 1208

Peripheral arterial system
Vascular ultrasound: yet another casualty? (Commentary), 126
Volumetric assessment of carotid artery bifurcation using freehand-acquired, compound 3D ultrasound (Short communication), 289
Accuracy of intravascular microcatheter pressure measurements: an experimental study, 448
The bead bag immobilization device (Short communication), 889

Peripheral venous system
Embolization of iatrogenic venous pseudoaneurysm (Case report), 311
Right atrial metastatic melanoma detected by dynamic contrast enhanced spiral CT (Case report), 395
Systemic to pulmonary venous communication (right-to-left shunt) in superior vena cava obstruction demonstrated by spiral CT (Case report), 712

Lymphatic system
Ultrasonographic detection of normal lymph nodes in patients with breast cancer, (Correspondence), 827

Skeletal

Congenital
Reliability of radiological measurements in the assessment of hip dysplasia in adults, 331

Trauma
Acute pan-costochondritis demonstrated by gallium scintigraphy (Case report), 210
Variation between experienced observers in the interpretation of accident and emergency radiographs, 323
Radiographic screening for midfacial fracture in A&E (Commentary), 523
Growing skull fracture extending posteriorly to the superior sagittal sinus with intradiploic extension (Case report), 714
MRI assessment of the pre-vertebral soft tissues in acute cervical spine trauma (Pictorial review), 818

Tumour
MR imaging of synovial tumours and tumour-like lesions (Pictorial review), 212
Osteoid osteoma of a cervical vertebral body (Case report), 1120

Metabolic/endocrine
The reliability of bone age determination in central European children using the Greulich and Pyle method, 461
Superior mesenteric artery stenting for mesenteric ischaemia in Sneddon's syndrome (Case report), 607

Haemipoetic
Sonographic detection and characterization of musculoskeletal and subcutaneous tissue abnormalities in sickle cell disease, 9

Spine
Intramedullary spinal metastasis from carcinoma of the cervix (Case report), 89
Routine use of CT prior to lumbar puncture (Correspondence), 319
MRI assessment of the pre-vertebral soft tissues in acute cervical spine trauma (Pictorial review), 818
Measurement imprecision in vertebral morphometry of spinal radiographs obtained in the European Prospective Osteoporosis Study: consequences for the identification of prevalent and incident deformities, 957

Joints
MR imaging of synovial tumours and tumour-like lesions (Pictorial review), 212
Reliability of radiological measurements in the assessment of hip dysplasia in adults, 331

Bone densitometry
Cross-calibration, precision and patient dose measurements in preparation for clinical trials using dual energy X-ray absorptiometry of the lumbar spine, 354
Anomalies in dual energy X-ray absorptiometry measurements of total-body bone mineral weight change using Lunar, Hologic and Norland instruments, 661
An evaluation of a new gel-coupled ultrasound device for the quantitative assessment of bone (Short communication), 691
Geometry of proximal femur in the prediction of hip fracture in osteoporotic women, 729

Digestive system

Pharynx/oesophagus
Evaluation of ^{18}F-FDG positron emission tomography in gastric and oesophageal carcinoma, 525

Assessing chemotherapy response of squamous cell oesophageal carcinoma with spiral CT, 678
Subclavian artery aneurysm with oesophagoarterial fistula (Case report), 1208

Stomach

The hypertrophied antral-pyloric fold: CT appearance (Case report), 505
Evaluation of ^{18}F-FDG positron emission tomography in gastric and oesophageal carcinoma, 525
CT evaluation of gastric wall pathology (Pictorial review), 1124

Small intestine

Pre-operative staging of ampullary tumours by endoscopic ultrasound, 443
Plexiform neurofibroma of the small bowel infiltrated with metastatic adenocarcinoma (Case report), 604
Superior mesenteric artery stenting for mesenteric ischaemia in Sneddon's syndrome (Case report), 607
Ultrasound evidence of gas in the fissure for ligamentum teres: a sign of perforated duodenal ulcer (Case report), 901
Small bowel MRI using water as a contrast medium (Short communication), 994
Colour Doppler ultrasound for the evaluation of bowel wall thickening, 1164

Colon and rectum

Rectal adenocarcinoma: assessment of tumour involvement of the lateral resection margin by MRI of resected specimen, 18
Ultrasound, CT and colonoscopy of colonic cancer, 144
Does resection of small liver metastases from colorectal cancer improve survival of patients? 246
Pneumocephalus secondary to colonic perforation by ventriculoperitoneal shunt catheter (Case report), 704
Endorectal magnetic resonance imaging of a rectal duplication cyst (Case report), 896
A case of rectoprostatic fistula due to prostatic abscess visualized by barium enema (Case report), 1016
Differentiation of recurrent rectal cancer and scarring with dynamic MR imaging, 1155
Colour Doppler ultrasound for the evaluation of bowel wall thickening, 1164

Biliary

Biliary imaging by spiral CT cholangiography—a retrospective analysis, 149
Peritoneal abscess formation as a late complication of gallstones spilled during laparoscopic cholecystectomy (Case report), 201

Liver

The diagnosis of cirrhosis by high resolution ultrasound of the liver surface, 29
An anthropomorphic phantom for receiver operating characteristic studies in CT imaging of liver lesions, 35
The value of serial Doppler ultrasound as a predictor of clinical outcome and the need for transplantation in fulminant and severe acute liver failure, 134
Imaging findings in primary carcinoid tumour of the liver with gastrin production (Case report), 207
Does resection of small liver metastases from colorectal cancer improve survival of patients? 246
The meaning and significance of the equilibrium phase in enhanced computed tomography of the liver, 438
Hepatic hydatid cysts with exophytic component: a cautionary sign (Correspondence), 519
Correlation of a defect of portal perfusion in the dorsal part of segment IV of the liver on CT arterial portography with inflow of the aberrant pancreaticoduodenal vein, 552
Magnetic resonance imaging and proton MR spectroscopy in Wilson's disease, 749
Intrahepatic portosystemic venous shunt associated with a large abdominal tumour (Case report), 815
Aberrant gastric venous inflow to the left lobe of the liver parenchyma adjacent to the falciform ligament (Case report), 903
Imaging features of focal intrahepatic extramedullary haematopoiesis (Case report), 906
Abdominal ultrasound in acute schistosomiasis mansoni, 949
Hepatic artery aneurysm (Pictorial review), 1018

Pancreas

Transient splenomegaly in acute pancreatitis, 637
Contrast-enhanced CT in acute pancreatitis (Correspondence), 1029

Soft tissues

Multiple pyogenic granuloma demonstrated by SPECT using $^{99}Tc^{m}$-labelled red blood cells (Case report), 397
Diffuse retroperitoneal amyloidosis due to renal cell carcinoma (Case report), 412
Imaging appearances of Sister Mary Joseph nodule (Pictorial review), 1230

Endocrine system

Thyroid

Cricoid cartilage masquerading as a tumour on thyroid ultrasound, 644
Quantitative CT of the orbit in Graves' disease, 757

Parathyroid

Pre-surgical localization of ectopic parathyroid glands using three-dimensional CT imaging, $^{99}Tc^{m}$ sestamibi, and $^{99}Tc^{m}$ tetrofosmin imaging (Short communication), 296

Mediastinum

Polypoid endobronchial Hodgkin's disease with pneumomediastinum (Case report), 392

Contrast media

Multiple regression analysis of octanol/water partition coefficients of non-ionic monomeric radiographic contrast media with the combination of three molecular descriptors, 44

CT derived Patlak images of the human kidney, 153

Dynamic contrast-enhanced MRI studies in human tumours (Commentary), 427

The meaning and significance of the equilibrium phase in enhanced computed tomography of the liver, 438

Adverse reactions to radiocontrast media in an Indian population, 648

Comparison of iodixanol and iohexol in renal impairment (Short communication), 701

Small bowel MRI using water as a contrast medium (Short communication), 994

High speed injection of radiographic contrast media induces severe particulate contamination (Short communication), 998

The effect of antihistamine, endothelin antagonist and corticosteroid prophylaxis on contrast media induced bronchospasm, 1058

Clinical audit and management

Electronic monitoring of clinical experience during undergraduate training in diagnostic radiography (Short communication), 76

Vascular ultrasound: yet another casualty? (Commentary), 126

Variation between experienced observers in the interpretation of accident and emergency radiographs, 323

The cost of MRI: changes in costs 1989–1996 (Review article), 432

Is there an improvement in performance when radiographs are re-reported at 24 hours? 465

The benefits of hospital-wide picture archiving and communication systems: a survey of clinical users of radiology services, 469

The effect of a picture archiving and communication system (PACS) on patient radiation doses for examination of the lateral lumbar spine, 534

Interpretation of selected accident and emergency radiographic examinations by radiographers: a review of 11000 cases, 546

A comparison of image reject rates when using film, hard copy computed radiography and soft copy images on picture archiving and communication systems (PACS) workstations, 653

The cancer patient in the radiology department: do we live up to our responsibilities? (BIR Presidential Address), 929

PHYSICS AND TECHNOLOGY

Diagnostic radiology physics

Conventional

Radiographic exposure slide rules, 48

Diagnostic image quality of mobile neonatal chest X-rays and the radiation exposure incurred, 55

Awareness by radiology staff of the difference in radiation risk from two opposing lateral lumbar spine examinations (Correspondence), 221

Fetal doses from radiological examinations, 773

Radiation doses from CT in the Sultanate of Oman, 1073

CT

An anthropomorphic phantom for receiver operating characteristic studies in CT imaging of liver lesions, 35

Dose reduction during CT scanning in an anthropomorphic phantom by the use of a male gonad shield, 489

Relationships between physical dose quantities and patient dose in CT, 556

CT determination of bone mineral density and structural investigations on the axial skeleton for estimating the osteoporosis-related fracture risk by means of a risk score, 569

Half value layer measurements to facilitate patient dose assessment for newer CT scanners using published normalized dose data (Short communication), 792

CT guided interstitial high dose rate brachytherapy for recurrent malignant gliomas (Short communication), 805

Dental

Gamma-ray scattering for mandibular bone density measurement, 1069

Mammography

A comparison of two mammography film–screen combinations designed for standard-cycle processing (Short communication), 73

Analysis of optical density and contrast in mammograms, 670

Improving the visibility of radio-opaque markers in mammography (Short communication), 799

A phantom-based evaluation of an exposure equalization technique in mammography, 977

Image processing/perception/quality/image analysis

An anthropomorphic phantom for receiver operating characteristic studies in CT imaging of liver lesions, 35

Estimation of breast volume and its variation during the menstrual cycle using MRI and stereology, 236

Analysis of optical density and contrast in mammograms, 670

Comparison of film, hard copy computed radiography (CR) and soft copy picture archiving and communication (PACS) systems using a contrast detail test object, 856

PACS/image handling/3D

The benefits of hospital-wide picture archiving and communication systems: a survey of clinical users of radiology services, 469

The effect of a picture archiving and communication system (PACS) on patient radiation doses for examination of the lateral lumbar spine, 534

Comparison of film, hard copy computed radiography (CR) and soft copy picture archiving and communication (PACS) systems using a contrast detail test object, 856

QA/protection

Medical Exposures, Health Surveillance and the Medical Exposures Directive (Commentary), 1

Calculating shielding requirements in diagnostic X-ray departments, 179

Testing automatic exposure control devices used in diagnostic radiology (Correspondence), 319

Dose reduction during CT scanning in an anthropomorphic phantom by the use of a male gonad shield, 489

Dose calculation/measurement/instrumentation

Diagnostic image quality of mobile neonatal chest X-rays and the radiation exposure incurred, 55

Patient doses from barium meal and barium enema examinations and potential for reduction through proper set-up of equipment, 173

Report of an image quality and dose audit according to Directive 97/43/Euratom at Spanish private radiodiagnostics facilities, 186

Awareness by radiology staff of the difference in radiation risk from two opposing lateral lumbar spine examinations (Correspondence), 221

Fetal position and size data for dose estimation, 363

Estimating the effective dose to children undergoing heart investigations—a phantom study, 378

Patient radiation dose during lithotripsy (Short communication), 495

Relationships between physical dose quantities and patient dose in CT, 556

Evaluation of a MOSFET radiation sensor for the measurement of entrance surface dose in diagnostic radiology, 562

Radiation burden to paediatric patients due to micturating cystourethrography examinations in a Dutch children's hospital, 763

Fetal doses from radiological examinations, 773

Half value layer measurements to facilitate patient dose assessment for newer CT scanners using published normalized dose data (Short communication), 792

Real-time portal monitoring to estimate dose to skin of patients from high dose fluoroscopy, 846

Radiation doses from CT in the Sultanate of Oman, 1073

Patient specific doses used to analyse the optimum dose delivery in barium enema examinations, 1185

Bone densitometry

Cross-calibration, precision and patient dose measurements in preparation for clinical trials using dual energy X-ray absorptiometry of the lumbar spine, 354

CT determination of bone mineral density and structural investigations on the axial skeleton for estimating the osteoporosis-related fracture risk by means of a risk score, 569

Anomalies in dual energy X-ray absorptiometry measurements of total-body bone mineral weight change using Lunar, Hologic and Norland instruments, 661

The effect of region of interest selection on dual energy X-ray absorptiometry measurements on the calcaneus in 55 post-menopausal women, 864

Measurement imprecision in vertebral morphometry of spinal radiographs obtained in the European Prospective Osteoporosis Study: consequences for the identification of prevalent and incident deformities, 957

Comparison of adult and paediatric spine and whole body software for the Lunar dual energy X-ray absorptiometer, 967

Gamma-ray scattering for mandibular bone density measurement, 1069

Detectors

An evaluation of a new gel-coupled ultrasound device for the quantitative assessment of bone (Short communication), 691

Real-time portal monitoring to estimate dose to skin of patients from high dose fluoroscopy, 846

Radiotherapy physics

Photon therapy

The derivation of tissue-maximum ratio from percentage depth dose requires peak scatter factor to be considered as a function of SSD (Correspondence), 101

Electron therapy
Relative electron density calibration of CT scanners for radiotherapy treatment planning, 781
Novel solutions to the problems encountered in electron irradiation to the surface of the head, 787

Brachytherapy
An investigation into the use of polymer gel dosimetry in low dose rate brachytherapy, 1085

Heavy particle therapy/equipment
Comparison of proton therapy and conformal X-ray therapy in non-small cell lung cancer (NSCLC), 1078

Equipment/linear accelerators
Two-dimensional kinetic models for radiotherapy planning quality assurance (Short communication), 193
Radiotherapy equipment standards from the International Electrotechnical Commission (Correspondence), 623
Clinical implementation of a computer controlled milling machine for compensating filter production (Short communication), 1099

Conformal therapy/multileaf/portal imaging
The use of independent collimation in the treatment of Graves' ophthalmopathy (Short communication), 389
Characterization of new portal film systems for radiotherapy verification, 479
The performance of a fluoroscopic electronic portal imaging device modified for portability (Short communication), 1000
Comparison of proton therapy and conformal X-ray therapy in non-small cell lung cancer (NSCLC), 1078

Radiotherapy imaging/simulation
Medical Exposures, Health Surveillance and the Medical Exposures Directive (Commentary), 1
A model simulator for radiotherapy treatment planning and checking (Short communication), 293
Assessment of accuracy of daily set-ups in prostate radiotherapy using electronic imaging (Short communication), 579

Treatment planning/dose computation
The X-ray and electron benchmarking of the Monte Carlo Codes MCNP-4A and 4B on different computers (Short communication), 196
Use of dose–volume histograms and biophysical models to compare 2D and 3D irradiation techniques for non-small cell lung cancer, 279
A model simulator for radiotherapy treatment planning and checking (Short communication), 293
Reducing cardiac dose in post-operative irradiation of breast cancer patients: the relative importance of patient positioning and CT scan planning, 986

QA/protection
Two-dimensional kinetic models for radiotherapy planning quality assurance (Short communication), 193
Brain radiotherapy during pregnancy: an analysis of conceptus dose using anthropomorphic phantoms, 274
In vivo dosimetry using diodes as a quality control tool—experience of 2 years and 2000 patients (Short communication), 891
Breast radiation injury litigation (Correspondence), 925

Dose measurement/calibration/instrumentation
Brain radiotherapy during pregnancy: an analysis of conceptus dose using anthropomorphic phantoms, 274
^{90}Sr ophthalmic applicator as a stability check source for radiotherapy dosemeters (Correspondence), 725
In vivo dosimetry using diodes as a quality control tool—experience of 2 years and 2000 patients (Short communication), 891
An investigation into the use of polymer gel dosimetry in low dose rate brachytherapy, 1085

Nuclear medicine
Equipment/gamma camera/PET/SPECT
A transformation cross-talk technique for simultaneous dual radionuclide imaging: a myocardial perfusion ^{201}Tl/^{99}Tc^{m} sestamibi dog SPECT study, 872

QA/protection
Medical Exposures, Health Surveillance and the Medical Exposures Directive (Commentary), 1

Modelling/image processing
A transformation cross-talk technique for simultaneous dual radionuclide imaging: a myocardial perfusion ^{201}Tl/^{99}Tc^{m} sestamibi dog SPECT study, 872

Ultrasound
Instrumentation/QA
Accuracy of alignment in breast irradiation: a retrospective analysis of clinical practice, 685

Non-ionizing radiation
Light/PUVA
The OxyLite: a fibre-optic oxygen sensor (Commentary), 627

Magnetic resonance
Instrumentation/imaging
Design and use of internal receiver coils for magnetic resonance imaging (Review article), 1141

Spectroscopy

A preliminary study for clinical pharmacokinetics of oral fluorine anticancer medicines using the commercial MRI system ^{19}F-MRS (Short communication), 584

RADIOTHERAPY AND ONCOLOGY

Clinical systems

Head and neck

Calcification of presumed ovarian carcinoma brain metastases following radiotherapy (Case report), 85

Assessing chemotherapy response of squamous cell oesophageal carcinoma with spiral CT, 678

Retreatment of cancer after radical radiotherapy (Commentary), 1037

Dynamic contrast enhanced magnetic resonance scanning as a predictor of response to accelerated radiotherapy for advanced head and neck cancer, 1093

Skin

Perianal Paget's disease (Case report), 610

The risks of treating keloids with radiotherapy (Case report), 1222

Gynaecology

Determination of tumour regression rates during radiotherapy for cervical carcinoma by serial MRI: comparison of two measurement techniques and examination of intraobserver and interobserver variability, 62

60 Gy isodose volumes in carcinoma of the cervix and their relation to the geometry of uterine tube and ovoids, 168

High dose rate brachytherapy practice for the treatment of gynaecological cancers in the UK, 371

Retreatment of cancer after radical radiotherapy (Commentary), 1037

Repeated ^{131}I treatment of a residual ovarian teratoma containing malignant thyroid tissue (Case report), 1110

Contrast enhanced dynamic MRI of cervical carcinoma during radiotherapy: early prediction of tumour regression rate, 1177

Ocular metastasis of choriocarcinoma (Case report), 1216

Genitourinary

Calcification of presumed ovarian carcinoma brain metastases following radiotherapy (Case report), 85

In the radiotherapy of prostate cancer, technique determines the doses to the penile structures, 882

Gastrointestinal

Assessing chemotherapy response of squamous cell oesophageal carcinoma with spiral CT, 678

Lung

Retreatment of cancer after radical radiotherapy (Commentary), 1037

Breast

Positron emission tomography in breast cancer: a clinicopathological correlation of results, 1064

Myeloma

Stage IV endometrial carcinoma: a 10 year review of patients, 485

Malignant mesothelioma of the tunica vaginalis: a case with an unusually indolent course following radical orchidectomy and radiotherapy (Case report), 502

Plasma cell neoplasms in the young (Case report), 1012

Neuro-oncology

Improved trigeminal and facial nerve tolerance following fractionated stereotactic radiotherapy for large acoustic neuromas, 1202

Acute hyperthermia following stereotactic radiosurgery for pituitary adenoma (Case report), 1218

Sarcoma

Rhenium-186 HEDP as a boost to external beam irradiation in osteosarcoma (Case report), 1225

Others

Intracoronary artery radiation (Commentary), 1033

Clinical radiotherapy

External beam

Perianal Paget's disease (Case report), 610

Plasma cell neoplasms in the young (Case report), 1012

3D treatment planning/normal tissue sparing

Value of a multileaf prescription preparation system for palliative external beam irradiation (Short communication), 384

Comparison of MRI with CT for the radiotherapy planning of prostate cancer: a feasibility study (Short communication), 590

In the radiotherapy of prostate cancer, technique determines the doses to the penile structures, 882

Retreatment of cancer after radical radiotherapy (Commentary), 1037

Conformal therapy/dose escalation

Image quality parameters for the production standard Eliav PORTpro portal imaging device (Short communication), 802

Real-time portal imaging

Image quality parameters for the production standard Eliav PORTpro portal imaging device (Short communication), 802

Brachytherapy
60 Gy isodose volumes in carcinoma of the cervix and their relation to the geometry of uterine tube and ovoids, 168
High dose rate brachytherapy practice for the treatment of gynaecological cancers in the UK, 371
Intracoronary artery radiation (Commentary), 1033
Retreatment of cancer after radical radiotherapy (Commentary), 1037

Isotope therapy
Enhanced normal tissue doses caused by tumour shrinkage during brachytherapy (Short communication), 499
Repeated ^{131}I treatment of a residual ovarian teratoma containing malignant thyroid tissue (Case report), 1110
Rhenium-186 HEDP as a boost to external beam irradiation in osteosarcoma (Case report), 1225

Altered fractionation
Improved trigeminal and facial nerve tolerance following fractionated stereotactic radiotherapy for large acoustic neuromas, 1202

Palliative radiotherapy
CT guided interstitial high dose rate brachytherapy for recurrent malignant gliomas (Short communication), 805
Successful interstitial treatment for bilateral tongue cancer (Case report), 812
Ocular metastasis of choriocarcinoma (Case report), 1216

Toxicity and symptom management
Patients leaving hospital after administration of radioactive substances, 121
Retreatment of cancer after radical radiotherapy (Commentary), 1037
Acute hyperthermia following stereotactic radiosurgery for pituitary adenoma (Case report), 1218

Supportive care and quality of life
Pain control
Value of a multileaf prescription preparation system for palliative external beam irradiation (Short communication), 384

Prevention
Education
Patients leaving hospital after administration of radioactive substances, 121

Environmental risk
Patients leaving hospital after administration of radioactive substances, 121

Clinical management and audit
The cost of radiotherapy as a function of facility size and hours of operation (Short communication), 598

Novel and combined treatment modalities
Antitoxicity therapies/biological modifiers
A preliminary study for clinical pharmacokinetics of oral fluorine anticancer medicines using the commercial MRI system ^{19}F-MRS (Short communication), 584

RADIOBIOLOGY

Biological basis of radiological protection
Carcinogenesis
The risks of treating keloids with radiotherapy (Case report), 1222

Radiobiology as applied to radiotherapy
Normal tissue toxicity
Retreatment of cancer after radical radiotherapy (Commentary), 1037
Determination of colony numbers in pig epidermis as an estimate for radiosensitivity. A rapid assay based on *in vitro* BrdU-labelling (Short communication), 1104
An experimental study of radiation-induced cognitive dysfunction in an adult rat model, 1196
Acute hyperthermia following stereotactic radiosurgery for pituitary adenoma (Case report), 1218

Early tissue effects
Determination of colony numbers in pig epidermis as an estimate for radiosensitivity. A rapid assay based on *in vitro* BrdU-labelling (Short communication), 1104

Late tissue effects
An experimental study of radiation-induced cognitive dysfunction in an adult rat model, 1196
Improved trigeminal and facial nerve tolerance following fractionated stereotactic radiotherapy for large acoustic neuromas, 1202

Tumour models
Use of dose–volume histograms and biophysical models to compare 2D and 3D irradiation techniques for non-small cell lung cancer, 279
Enhanced normal tissue doses caused by tumour shrinkage during brachytherapy (Short communication), 499
Dynamic contrast enhanced magnetic resonance scanning as a predictor of response to accelerated radiotherapy for advanced head and neck cancer, 1093
Contrast enhanced dynamic MRI of cervical carcinoma during radiotherapy: early prediction of tumour regression rate, 1177

Dose fractionation

Improved trigeminal and facial nerve tolerance following fractionated stereotactic radiotherapy for large acoustic neuromas, 1202

Dose rate

High dose rate brachytherapy practice for the treatment of gynaecological cancers in the UK, 371

Retreatment of cancer after radical radiotherapy (Commentary), 1037

Oxygen effect

The OxyLite: a fibre-optic oxygen sensor (Commentary), 627

Mathematical models

Dose fractionation/dose rate

Enhanced normal tissue doses caused by tumour shrinkage during brachytherapy (Short communication), 499

EDUCATION

A pain in the back! (Case of the month), 99

An unlucky break (Case of the month), 219

A complication following a total knee arthroplasty (Case of the month), 317

A case of acute right-sided abdominal pain (Case of the month), 421

A lump in the abdomen (Case of the month), 517
